

# Breakout Edu Directions

**\*\*\*Very important: Always try out new lock codes without attaching to box first, just in case.**

Lock Type	Scan for video on how to use	Other Info	Current lock setting (write down EACH time)	Storage
 <p><b>4-Digit Lock</b></p>	 <p>Open. Turn 180°, hold down to set.</p>			<p><b>Store in Locked Position.</b></p> <p>Make sure you have recorded the current lock setting or reset to 000.</p>
 <p><b>4-Digit Lock</b></p>	 <p>Open. Use coin to turn slot so circles align. Set new combo. Turn slot back. Close.</p>	<p>Not shipped with all kits.</p>		<p><b>Store in Open Position.</b></p> <p>Open the lock and then use a coin to put it into reset mode. Make sure you have recorded the current lock setting or reset to 0000.</p>

**3-Digit Lock**

Open. Turn 90°, hold down to set.

**Store in Locked Position.**

Make sure you have recorded the current lock setting or reset to 000.

**3-Digit Lock Box**

Open. Push button towards lock and hold to set.

Not shipped with all kits.

If it gets stuck, look for the little white indentation behind each wheel on the correct number.

**Store in Open Position.**

Make sure you have recorded the current lock setting or reset to 000.

**Direction Lock**

Push reset lever up. Close and squeeze twice to clear. Open. Enter new combo. Push reset lever down. Lock.

Be very careful—we have found this is the easiest lock to set unintentionally.

**Store in Reset Position.**

Open the shackle and push the pin on the rear of the lock into the up position. Make sure you have recorded the current lock setting or reset to up, down, left, right.

 <p><b>Word Lock</b></p>	 <p>Open. Use coin to turn slot on left to reset. Set combo. Turn slot to back. Lock.</p>	 <p>List of All Possible Combos</p>		<p><b>Store in Open Position.</b></p> <p>Open the lock and then use a coin to put it into reset mode.</p>
 <p><b>Multilock</b></p>	 <p>Open lock. Pull metal cap off. Make sure red marks stay aligned with logo. Install disks so combo aligns with logo. Snap cap back on. Lock.</p>	<p>Not shipped with all kits.</p>		<p><b>Store with wheels placed on the shackle.</b></p> <p>That way to open the lock and reset it, you simply need to align the small grooves with the red paint on them at the bottom of the lock to open and place the wheels on as you wish.</p>
 <p><b>Breakout Edu Locks App</b></p>		<p>Download from App Store.</p> <p>Allows you to create:</p> <ul style="list-style-type: none"> <li>• Text Lock</li> <li>• Number Lock</li> <li>• Directional Lock</li> <li>• Shape Lock</li> <li>• Color Lock</li> </ul> <p>Can reveal an image, text, or a website link.</p>	<p>Password:</p>	

 <p><b>Hint Cards</b></p>			N/A
